ABOUT US

Operation Teammate in Augusta, Georgia, is a children's focused organization engaged in supporting the sons and daughters of all branches of the military. We provide these children with a memorable sporting experience by teaming them with sports teams who make them honorary members during various times.

With extensive research and more than 3,000 hours of community involvement, we have found athletic and community organizations are more than eager to join our cause. We don't just assist children while their parents are away; we help build their character, so they become significant members of the community like their parents.

At Operation Teammate, we understand the challenges that come with being a military child. While you are on duty across the globe, we provide an opportunity for them to grow socially and build self-confidence through Impactful Athlete Interaction.

PATHWAY TO SUCCESS

Since 2015, Operation Teammate has provided opportunities for sports teams to welcome children (ages 5-18) of military members as honorary teammates.

Some examples include:

- Deployments,
- Training Exercises, and
- Disaster Relief Efforts.

These children are our primary focus.

Our aim is to arrange memorable sporting experiences to help them and their families through those difficult times.

Operation Teammate events also show the importance of children being involved throughout their local communities and guide them to understand that...

PROPOSAL TO TEAMS

Operation Teammate pursues opportunities to team up with athletic organizations to create a memorable sporting experience between our children and the teams. This enables Operation Teammate to provide opportunities for military children to attend an experience unique to them.

Some options include meet & greet time prior to a scheduled event and picture/autograph opportunities at the appropriate times. Also, this could be followed up by the execution of Pen Pal corresponding between select players and children of the military.

Our organizational goals align with like-minded initiatives, and while incorporating the Operation Teammate mission within a team's community outreach program, it would establish that bridge between our families and various teams, resulting in Impactful Athlete Interaction!

“I am currently deployed in Afghanistan and this program allowed all 3 of my kids to see first hand what being apart of collegiate team is like. I am thankful for those that gave their time and energy to set all this up. And my hats off to all the players and coaches for putting smiles on their faces and possibly adding a little more determination in their desire to succeed in life. Thank you.”
